### Age UK- over 70's

The fantastic support of local people and businesses is enabling our emergency shopping and prescription collection service to help hundreds of older people living in Milton Keynes who have no one to help them locally.

The emergency service is separate to our normal Independent Living Service and we aim to provide help within a couple of days. All our volunteers delivering emergency shopping will have ID and are DBS checked.

Call **01908 550700** Monday - Friday 9am to 4pm <https://www.ageuk.org.uk/miltonkeynes/>  
**'Milton Keynes COVID-19 (Taking care of our neighbours)'**

A Facebook group has been set up to encourage the people of Milton Keynes to come together and help those who are elderly, vulnerable or need extra assistance during the coronavirus outbreak. Its main aim is to help those who may be struggling during this difficult time. This could range from collecting somebody's prescription, picking up and delivering groceries, to just having a chat over the phone. You can **ask for direct help on the group from members** such as needing help delivering provisions. The post must be clear as to why you need the support and explain why you have no other help. The group has a list in the FILES section that has links to companies that can deliver provisions. We have a file that has local groups such as Community fridge as places you can find provisions.
